Office Note.

FILE No. 141 OF 1893.

Part III.

D. No: 485

Nos 6234 and 6518 dated 7th November 99 & 20th idem respectively from the Residency Surgeon.

The work of supplying certain portion of the Nursing Hospital with pipe water has been estimated at Rs 680 or 25 in excess of the budget allotment. The Residency Surgeon cannot say at present under what particular item a saving of Rs 25/- is expected & omits the difference to be met from general savings. Such a course does not appear to accord with article 157 Civil Account Code. In connection with the new additional female & maternity wards, there is a great deal of unexpended money unspent out of the current year's allotment, & it is for the Residency Surgeon to name an item from

S. 5

which this small amount can be
realised. In anticipation of obtaining
the new wards, the allotment is
₹/- 1525/- may be taken from this
for the purpose. The Residency Surgeon
may be referred to?

2 In his letter 9th inst., the Residency
Surgeon says that the Commanding R.E.
Brigade Bhir wants the estimated
amount (₹ 680) paid so that
the work be put in hand. The work has
not yet been finally sanctioned by
the Resident as the Estimate had to be
passed by the Ch: Engr., M. W. The Residency
Surgeon may be asked to send up the
Estimate with an intimation whether
it has been passed by the Ch: Engr?

3. It is not understood why an
advance should be made. The P.W. Dept
generally pays out works on Contracts
& payments are made on bills for
work actually done. The same course may
be followed. The Residency Surgeon
supplying the Commanding R.E. with
funds as required. Perhaps it is thought
convenient for the M-W. Dept to have funds
at their disposal & make payments themselves.

Provision has been made for the expenditure in the budget estimate for 1900-1901 - If the budget be sanctioned, there seems to be no necessity to refer the matter to the Govt of India.
